

# SUPPLIER DOCUMENT MANAGER

This helpful tool forms part of our Supply Chain Management module allowing you to create templates for supply chain procedures & processes, manage required documents, manage compliancy and approval and gain full visibility and accountability of all activities.

## FEATURES INCLUDE:

- ✓ Upload and share documents with your customers in response to their requests and view full details of these documents, i.e. owner, expiry date and shares. The document details along with full version history enables you to be more efficient in the way you manage your documents.
- ✓ Automatic email notifications are sent out whenever one of your certificates is about to expire.
- ✓ View a complete list of customers who have listed you as their supplier with colour-coded details of your compliancy with them, so you can quickly see what needs your action.

- ✓ View all the activities that you and your customer have carried out on Foods Connected for full transparency and accountability of all actions.

Our Supply Chain Management module with each of its tools interconnects and integrates seamlessly with our Quality Management and Trading and Planning modules and are available on the Foods Connected single pane of glass platform.
