

# INTERNAL CHECK MANAGER

This helpful tool forms part of our Quality Management module and allows you to take control of all internal quality checks either at your desktop or on the move with our mobile app. Run reports and analyse what is happening in your factory in real-time so you are guaranteed your production area is as safe and quality assured as your products.

## FEATURES INCLUDE:

- ✓ Ability to create fully customised checks.
- ✓ Compose response templates for the customer.
- ✓ Easy form builder process.
- ✓ Set-up customisable pre-set answers.
- ✓ Large range of answer templates, i.e: dropdown boxes, checkboxes, date picker etc.
- ✓ Ability to assign conditions means that if certain answers are given the tool will ask further questions.
- ✓ Ability to analyse checks.
- ✓ Assign owners of non-conformances & assign tasks.
- ✓ Generates automatic reminders for to-do tasks.
- ✓ Filtering available for all sections & activities.
- ✓ Ability to export to PDF.
- ✓ Assign approvers of checks.

- ✓ View history of checks & activity.
- ✓ Report on checks through a widget.
- ✓ Add scoring to checks.
- ✓ Checks can be downloaded to a mobile device, filled in and then uploaded to the Foods Connected platform where they can be easily accessed from your desktop.
- ✓ Schedule checks on calendar.

Our Quality Management module with each of its tools interconnects and integrates seamlessly with our Supply Chain Management and Trading and Planning modules and are available on the Foods Connected single pane of glass
